Dear Mr. Hughes:

Re: N7L1-1828 – MGM Energy Corp, Cuttings and Fluids Injection Facility at Aput C-43 site - Licence Closure

On November 16, 2017, the Inuvialuit Water Board (IWB) reviewed Type “A” Water Licence N7L1-1828 issued to MGM Energy Corporation for the Cuttings and Fluids Injection Facility at Aput C-43 site on Ellice Island in the Mackenzie Delta. The IWB also reviewed the final inspection report by Environment and Natural Resources (ENR) Water Resources Officer Lloyd Gruben recommending licence closure.

According to IWB records, field activities were not conducted and security was not deposited in association with the licence. Following review of these documents, the IWB passed Motion 433-05 to close Type “A” Water Licence N7L1-1828.

If you have any questions regarding the closure of this licence please contact Mardy Semmler, IWB Executive Director, at 867-678-8609 or at semmlerm@inuwb.ca.

Sincerely,

A handwritten signature in black ink, appearing to read 'Roger Connelly', written over a light blue circular stamp.

Roger Connelly
Chairperson
