Good morning folks: We have approval of the motion from Mark, Richard and Lou. The motion is carried.

Cheers

Roger

Good evening gentlemen: We have a motion by Mark, seconded by Lou, to extend the existing Tuktoyaktuk water licence by one month to December 20, 2018. Do we have approval of the motion?

Cheers,

Roger

Good morning folks. Small glitch. EISC has advised that they have not received a project summary from Tuk and as such they cannot determine if the activity needs to be screened. We have spoken with THC and EISC - THC will complete and send in the project summary by tomorrow evening (simple and straightforward document)

and EISC will screen it next Thursday. We need to extend THC's current license to accommodate this delay (by one month to be on the safe side). We will need a motion on this extension please.

(Mardy and I will meet with the EISC folks next Friday to clarify this issue - no record of any previous screenings of municipal water licenses).

Cheers

Roger
