Benjamin Fraser  
Tuk Base Project Manager  
Imperial Oil Environmental and Property Solutions  
505 Quarry Park Blvd S.E. C4A  
Calgary, AB T2C 5N1

Dear Mr. Fraser:

**Re: N5L8-1841 – Imperial Oil Environmental and Property Solutions (Imperial Oil) – Tuk Base Remediation Project – Notice of Modification**

The Inuvialuit Water Board (IWB) acknowledges receipt on August 19, 2020 of the notice of modification to add a decant structure at the sump of the engineered soil staging area. The decant structure is to prevent the risk of berm erosion if the sump fills to capacity during spring snow melt. The IWB accepts the notice of modification as submitted subject to the terms and conditions of water licence N5L8-1841 including:

- Part E: Conditions Applying to On-Site Excavation and Earthworks, Item 3 - The Licensee shall construct and operate all components of the Project designed to contain, withhold, divert or retain water or waste in accordance with all applicable federal or territorial legislation.
- Part E: Conditions Applying to On-Site Excavation and Earthworks, Item 8 - The Licensee shall stabilize and reclaim all on-site excavations and earthwork areas.
- Part H: Conditions Applying to Reclamation, Closure and Monitoring Plan, Item 3 - Upon completion of all activities, the Licensee shall ensure that all materials, equipment, temporary structures and debris are removed from the site. Other final reclamation activities as may be outlined in the Project Description shall be implemented to the satisfaction of the inspector.

The submitted documents, including all related IWB correspondence, will be placed on the Public Register. Should you have any questions please do not hesitate to contact Mardy Semmler, IWB Executive Director, at 867-678-8609 or [semmlerm@inuvwb.ca](mailto:semmlerm@inuvwb.ca).

Sincerely,

Roger Connelly  
Chairperson
