Inuvialuit Water Board
151 Mackenzie Road – Mack Travel Building – 2nd floor
PO Box 2531
Inuvik, NT, X0E 0T0

Attention: Mardy Semmler, Executive Director of the Inuvialuit Water Board

Dear Ms. Semmler,

Re: N3L8 – 1844 Water License

On behalf of Northwestel Inc. (NWTel), I am writing to notify the Inuvialuit Water Board that the works permitted under water license N3L8-1844 have been completed and there will be no requirement to extend this beyond the scheduled expiry date of February 19, 2021. Therefore, NWTel requests that license N3L8-1844 be closed.

As permitted under license N3L8-1844, removal of structures and assets at the Taglu site was completed between March 7th and March 20th, 2020. Water was withdrawn from the Mackenzie River at a rate of less than 100 m³/day to create an ice road access between the River and the Taglu site. All site infrastructure, materials, equipment and waste were removed from the site at the end of the work and transported to Inuvik for processing and separation for disposal at the Inuvik Landfill or appropriately licensed southern locations (for hazardous wastes).

The Annual Report and cover letter was submitted to the Inuvialuit Water Board electronically on December 10, 2020 containing the information required by Part B, clause 1 and Part H, clause 3 of the license. A hardcopy of the Annual Report and cover letter has been sent by mail. With the acceptance of the Annual Report, NWTel has met all the conditions of license N3L8-1844, and therefore requests the license be closed.

NWTel would like to thank the Inuvialuit Water Board for their support in completing this project and in closing this license. Please do not hesitate to contact me with any questions or concerns.

Sincerely,

John Yeulet
Implementation Manager
