Re: **In The Matter of the Discharge of “raw sewage” into the Hamlet of Tuktoyaktuk’s Sewage Lagoon and Disposal of Waste into the Hamlet of Tuktoyaktuk’s Solid Waste Site Facility: Generated from Activity Related to the Inuvik to Tuktoyaktuk Highway Construction Project**

Dear Pietro,

In regard to the above:

The Hamlet of Tuktoyaktuk will accept non-hazardous waste in its solid waste site as defined by NWT regulations and as per the Hamlet of Tuktoyaktuk Bylaws governing such; and will accept sewage in its sewage lagoon so long as it does not contain any hazardous materials: tipping fees will apply.

Regards,
