Re: Hamlet Of Tuktoyaktuk Water Licence (N7L3-0714) Request For Deferral Of Section D-26

Dear Sir or Madam:

In regard to our licence and requirement D-26, stating as follows:

"The licensee shall, by July 31, 2013, submit an assessment of effects of the solid waste disposal facilities on small bay adjacent to the facilities...";

due to the fact that we have had emergency sewage decants on June 13th, and August 6th of 2013 we question that the effects assessment of the solid waste disposal lagoon discharge into the small bay would not be meaningful.

Therefore, we ask that under the circumstances would it be appropriate that we get a deferral on this item to the renewed water licence.

Regards,

Tom Matus, SAO
