RE: Final Inspection of Anadarko Canada
Corporation Immerk Winter 2001/2002 2D
Seismic Program
Water Licence N7L1-1782

Please find enclosed Canadian Natural Resources Ltd. Final report in regards to the water licence N7L1-1782, originally held by Anadarko Canada. Hopefully this will complete the terms and conditions necessary for this licence under the NWT water act.

As you are likely aware CNRL just recently purchased Anadarko Canada and as such I was not aware of this outstanding issue. Please accept this late submission of our final report with our apology for being this late.

If you have any other concerns or additional problems please contact me at the number listed below.

Sincerely,

Dahl Dow
Geophysical Operations Supervisor

Address:

2500, 855-2nd Street S.W.

Calgary, Alberta T2P 4J8

Ph: 403.517.6700

Lornel Consultants has prepared this report on behalf of CNRL. The primary contact at Lornel Consultants for this licence is Ralph Hirst.

Total quantity in cubic metres of fresh Water obtained from all sources under licence N7L1-1782

There was no water obtained under licence N7L1-1782. No roads were constructed for the seismic program, and drilling was conducted using air compressor drills/dry processes. The only water used in the seismic program was water obtained under a separate authority and trucked in from Inuvik. This potable water was used in the campsite.

Total quantity in cubic metres of each and all Waste discharged under licence N7L1-1782

There was no waste discharged under licence N7L1-1782. All sewage from the campsite was pumped into vacuum trucks, and disposed of in Inuvik.

Summary of any modifications carried out on the water supply and waste disposal facilities, including all associated structures

No modifications were carried out.

List of spills and unauthorized discharges in connection with licence N7L1-1782

There were no spills or unauthorized discharges in connection with licence N7L1-1782.

Other details on water use or waste disposal

No other details.
