Attention: Mike Harlow
Executive Director

Dear Sir,

Re: Aurora Research Institute License Number N7L1-1817

It is our understanding that the Aurora Research Institute has now completed all reclamation activities associated with the above-noted water license and the Malik Project. The only remaining obligation of the Aurora Research Institute is the monitoring of the Japex sumps under Part H paragraph 2 of the license. As you will recall, Aurora Research Institute is only required to monitor the sumps and has no obligation in regard to their remediation or reclamation.

As we have now completed all reclamation activities related to the license, we request that you refund the remaining \$100,000.00 of our security deposit, which you were retaining pending the completion of these activities.

Please do not hesitate to contact me at your earliest convenience should you have any questions or concerns in regard to any of the foregoing.

Sincerely,

Pippa Seccombe-Hett
Director, Aurora Research Institute
